PERSONAL DETAILS

Year of birth: 1993

PROFILE

I develop software solutions using Python, PHP, AngularJS, ReactJS and Next.js. My professional theatre experience has helped me build discipline and communication skills that I draw on when working with a team. I enjoy learning new technologies and contributing to projects with an open mind.

EXPERIENCE

Kahuna Music

2021 - 2024

Full-Stack Developer

- Designed scalable API architectures and developed backend services with Django.
- Built user interfaces with AngularJS and React to meet project requirements.
- Automated data collection by developing web scraping tools in Python.

Ekol Hospitals

2020 - 2021

Software Specialist

- Developed the hospital network's corporate websites using PHP.
- Enhanced EBA Workflow to digitise internal approval and request processes.
- Created B2B and B2C web applications tailored to institutional needs and interactions with patients and business partners.

TictocSoft

2017 - 2019

Software Specialist

- Designed and developed scalable e-commerce and ERP solutions using Django.
- Developed corporate websites with Django to meet client specifications.

THEATRE

Theatre Salt · 2013 - Present

Professional theatre experience; communication, collaboration and discipline.
